Historical Note

The Manufacturing Engineering Cooperative Program (MECOP) was established in 1978 as a collaboration between OSU and Oregon-based manufacturing companies to provide Oregon State engineering students a working laboratory to apply the theories they learned in the classroom. In 1992, the mechanical, electrical and chemical engineering departments began participating and the program was renamed the Multiple Engineering Cooperative Program. Program participants complete two 6-month internships in industry during their undergraduate degree program.

Content Description

The College of Engineering Videotapes consist of two videotapes: A 13-minute videotape production about the Multiple Engineering Cooperative Program (MECOP) was produced in about 1995 (FV P069:1). *Enginuity*, a promotional and recruiting videotape about the College of Engineering academic departments and programs, was produced in 1996 (FV P069:2). Both videotapes are VHS format.
